### Basic Information

Height: 37"

Length: 27"

Depth: 27"

Weight: 120 lbs

### Materials

- 14 GA sheet metal
- Recycled plastic slats

### Construction

-Body: Frame is constructed from cut and bent 14 GA sheet metal. Inserted within the frame are recycled plastic slats

-Decorative trim is cut from the sheet metal and welded along the base for aesthetic appeal

### Powder Coat Finish Procedure

-1. Metal substrate is shot-blasted to remove contaminants and create an optimal etched profile for powder adhesion.

2. Substrate is then washed with an alkaline rinse to further enhance coating effectiveness.

3. An industrial sealer is applied to the piece to inhibit rusting.

4. The piece is then coated with an epoxy powder coat primer and subsequently cured in our oven according to manufacturer's guidelines.

5. The metal returns to the powder booth for application of UV-resistant, polyester powder coat finish and is cured again in the oven. The furniture emerges with a beautiful and durable exterior that is capable of withstanding the rigors of demanding public spaces.

### Warranty

- The Renaissance team warrants the quality of every site amenity that leaves our factory. If the product is installed according to our recommendations, we will guarantee the frame construction for the life of the item. All other components are guaranteed for three years after shipment.
